Dear Parent/Carer

RE: SIMS Parent App

At Haydon School we use a system called SIMS (School Information Management System) to record data about your child. All Staff use this to record registers, track attendance, enter rewards when students have performed well, enter sanctions to track behaviour and grades to track academic progress. This is a vital tool for us to monitor and to improve the progress that your child makes at Haydon School.

As part of SIMS we also have an ePortal called '*Parent App*' which provides secure online access to the school's information anytime and anywhere for parents. With the *Parent App* you will be able to access information about your child using an app on your Smart Phone. This will allow you to see registers, timetables, rewards, sanctions and progress.

We hope you will use *Parent App* to keep you informed about the progress of your child at Haydon School. We are sure you are aware of the importance of parental engagement in the progress of children and we value this tool to facilitate your involvement to support the learning of your child.

To be able to use *Parent App* you will receive an email indicating a link to register. This will allow you to access the information about your child securely; you will not be able to access information about any children other than your own. The school will provide information on how to use the app and there will be a help guide posted on our website.

Yours sincerely

R W Jones
