

Why use SIMS Parent App?

Once you have the SIMS Parent APP you will have access at the click of a button to important information about your child at Haydon, such as:

- Attendance, achievement and behaviour information as it happens
- Access your child's school report (we do not issue paper reports) – when available
- Access your child's timetable
- Access to update your contact details and all your child's key information, so we always have the most up-to-date information in case of emergency
- If you have more than one child at school, you will have access to information for all your children, from the same app

To set up **Haydon School SIMS Parent is a 2 stage process** - you are required to register with SIMS first and then install the SIMS Parent App on your smartphone or device (or just use the website, if you prefer)
