

300e Chromebook

Touch. Bend. Flip. Learn. Repeat.

SMART TO THE TOUCH

Tech for the touch-generation, the 300e is a true hands-on learning device with four modes of flexibility: Laptop, Tent, Tablet and Stand, so students can adapt their learning styles as needed. All that versatility leads to a better overall learning experience.

CONTROL. CONNECT. COLLABORATE.

The 300e is built to exceed expectations. Versatile tools like G Suite for Education and Google Classroom promote a collaborative classroom environment, all while maintaining a personalized learning experience that helps students meet their goals.

BIG FEATURES, COMPACT CHROMEBOOK

The 300e may be light in weight, but it's big on power and performance. When you combine up to 10 hours* of battery life with the unparalleled speed of a Performance Processor, it makes staying connected and studying easier than ever.

DURABILITY DONE RIGHT

Drops, dents, spills, bumps; the new 300e is built to withstand them all. The rubber bumpers and reinforced ports provide added durability, while the water-resistant keyboard with mechanically anchored keys protects against potential water damage.

*Based on Google Chrome Power_LoadTest, a battery run down test. For more information about Google Chrome Power_LoadTest, visit www.chromium.org. Test results should be used only to compare one product with another and are not a guarantee you will experience the same battery life. Battery life may be significantly less than the test results and varies depending on your product's configuration, software, usage, operating conditions, power management settings and other factors. Maximum battery life will decrease with time and use.
