

Advocacy Project

CAAS are delighted to be able to introduce our Advocacy Project. The Advocacy Project is a friendly, free and confidential service that supports children, young people and adults in having their views and wishes take into account.

Advocacy is:

Informative

Supportive

Having a Voice

Being Heard

The Advocacy Project aims to:

- Support you in knowing your rights and entitlements.
- Support / represent you at meetings in respect of health, social care, education and other services.
- Enable you to feel empowered, to make informed choices, to express your needs and wants by speaking on your behalf.
- Provide realistic outcomes ensuring individuals understand that not all wishes can be fulfilled.

Confidentiality & Trust

CAAS advocates work with service users to develop a relationship based on trust and respect. Advocacy relationships will be individual and will reflect the specific requirements of each relationship and contract. Confidentiality will be maintained within each advocacy relationship except where it is considered that there is a significant risk of harm to the individual or others.

Days and Times Monday and Wednesday from 9am till 2pm
