

HILLINGDON

LONDON

-

Dear Parent/Guardian/Carer

Recent reports from Public Health of England show increased presence of cannabis edibles and THC vaping consumption among young people. It is a new trend and something which parents might not be aware of.

SORTED (Substance Use and Misuse Programmes for young people) in collaboration with the Safer Schools' Police Officers team will be holding a FREE online information session on Friday the 25th of June at 10.00 am to raise awareness, advising how you might spot the signs a young person may have consumed cannabis products and what support is available.

To book your place on this online session, please, email SORTED team sorted@hillingdon.gov.uk

Kind regards

Ania Frejlich-Botha
