

Haydon Sixth Form's A Level Results 2021

Today our Year 13 students have received their A Level results. We are very proud of them for their hard work despite facing challenges to their education over two years.

55% of all grades were A*-B and 29% of all grades were A*-As. 153 students have attained a place in university this year. 51 (33%) of the 153 will be attending a Russell Group university with Queen Mary University being the clear favourite with 14 students. Two students will be studying Medicine, one at Queen Mary University and the other at Nottingham University. One student will be attending Oxford University to study Philosophy, Politics, and Economics. Not only are we proud of them but we are proud of all our students studying a range of degrees including Orthoptics, Acting for Screen, Children's Nursing, and Financial Mathematics. The broad range of courses represents the diverse and talented student population we have. Not only have our students been successful in university placements but in apprenticeships as well. Sadiya has secured a five year degree apprenticeship to become a Chartered Accountant.

Sadiya – degree apprenticeship
